Digilock® is a global leader in delivering high-performance electronic locks and locker security solutions. Patented technologies and innovation are the key factors that contribute to Digilock's success.

Founded in 1981, headquartered in California, with sales offices in The Netherlands and Hong Kong, Digilock continues to innovate since it delivered the first electronic lock for personal storage in 1992.

Our commitment to providing superior customer support and responsiveness to market demands enable Digilock to be recognized as the industry influencer making Security Simplified®.

Available in an array of designs, styles, and finishes, our products enhance environment appeal while safely and simply protecting personal belongings.

products

Quality is our signature in design and engineering, aesthetics, security, and overall user experience.

quality

technology

Driven by innovation, our products use the latest technology and highest caliber of materials to ensure flawless performance every time.

support

We provide world class customer service and product support, building lasting relationships around the world.

We promote Security Simplified® by providing lock and locker solutions. We deliver this through a steadfast commitment to our core values of innovation, design, quality, and enduring relationships.

company

Enhance Your SPACES Experience With Celáre®

By combining architecturally-inspired design, security and precision engineering, Celáre transforms any environment into a truly exceptional space.

Commercial Interiors

Changing workforce priorities have pushed companies to rethink and redesign what the modern workplace looks like. Work has become more mobile, and offices are adapting. The new workplace is an ecosystem of fluid, connected environments that bridge privacy and openness, giving people choice and control over where and how they work.

Health & Fitness

Every aspect of environment and operation impacts the guest experience. Elevating member experience is a priority for club managers and owners. Celáre lockers provide a valuable service - personal storage all the time, every time, and anywhere.

door types

DESIGN

From health club to resort to university, Celáre has a design to match them all. With the industry's most versatile style, Celáre lockers serve a vast range of personal storage needs in diverse environments and facility types.

Glass

Shatter-resistant, tempered safety glass doors are sleek and versatile in any environment.

Metal

Double panel, enamel-glazed steel doors are crafted works of art, as visually appealing as they are incredibly secure.

Phenolic

Phenolic doors designed to be scratch resistant and withstand industrial cleaners are available in an array of textures, woodgrains and vivid colors.

Locker PERFORMANCE

durable, heavy duty construction

16 gauge steel frame
19 gauge steel body

ships fully assembled

closed base included
optional slope tops included at no additional charge
hat shelf provided (1 tier lockers)
coat rod and hooks provided (1 and 2 tier lockers)

various configurations available

1 or 2 wide configurations
1, 2, 3, or 6 tiers

hidden soft-close hinges

Euro soft-close hinges promote quiet and effortless operation and protect locker doors.

integral frame and body

Universal frames allow door styles to be updated with facility redesigns.

Materials are sustainable and 100% recyclable, and engineered to withstand heavy use in demanding environments.

ventilated back panels

A comprehensive ventilation system that utilizes an aircushion that spans a full 72" to provide true vertical airflow.

charging options

Adapter panels convert existing Celáre lockers into charging lockers.

Standard charging lockers include 110V/120V and USB outlets with LED light for each tier.

PANTONE®
Solid C

pantone matching system (pms)

standard colors

- Pantone Black C
- Pantone White C

custom colors and finishes available

Choose from Pantone Formula Guide: Solid Coated for a wide variety of colors to match any environment design for glass or metal door lockers.

Choose from over 250 colors and woodgrain finishes and textures to customize phenolic door lockers.

Secured by Digilock, Celáre lockers support both single- and multi-user applications in a variety of environments.

user credential

Users operate with either a self-selected numeric credential, RFID credential, or an ADA compliant User Key.

body style

Available in standard or vertical body styles with pull handle.

functionality

shared use

In shared use functionality, the locks are designed for day-use lockers. The user chooses an available locker and operates it with a self-selected user credential. Once the locker is vacated, it becomes available for a different user.

assigned use

In assigned use functionality, the locks are designed for lockers that are for private use. The user is assigned a locker and operates it with their assigned user credential.

locking mechanism

deadbolt

Features a 1/2" (12.7mm) motorized deadbolt designed for either shared or assigned use functionality.

deadlatch

Features a 1/2" (12.7mm) motorized deadlatch designed for assigned use functionality.

cam lock

Features an offset or flat cam designed for either shared or assigned use functionality.

finish

Standard finishes are brushed nickel or black. Custom finishes are available upon request.

management

Programming and management access are accomplished via patented electronic keys. An optional mobile application allows simplified lock management and audit trail.

RFID credentials

Touch RFID locks work with both iClass and Mifare standards operating at 13.56 MHz frequency.

RFID Protocols

ISO 14443A ■ ISO 14443B ■ ISO 15693

Celàre locker systems can be managed through a mobile device. The mobile app allows simplified programming, management, and audit trail.

program

Provide management access and easily maintain management credentials.

audit

Report on when and who operated a lock.

auto unlock

Set locks to automatically unlock at a specific time or after a specified number of hours.

battery status

Visual indicator of lock's power level.
